

45th City Council District

Erlene J. King (RTH)

A vote for me, Erlene King is a vote for experience and dedication. For someone who will be visible and focused on improving the 45th District. I am doing everything I can to win this very important election, so I need your vote. There is no more time to waste, because for twelve years the District had two Council Members who produced nothing. Since 2009 the 45th District has lost two more public schools, we cannot continue to privatize schools therefore, I will fight to keep them open by working with struggling schools. Our children are at risk when they have to travel outside of the area just to get a primary school education. Since foreclosures are still plaguing the district. I will aggressively fund organizations which are helping families restructure their loans. Young people in the district have no place to go for self improvement; therefore, they are just hanging out and getting caught up in the prison system. I will develop a public private partnership to build a community center in the district. I will get Capital dollars for school construction, remove all trailers and put all our children in one safe structure. I will work with tenant advocacy groups to ensure there are safe affordable housing for low income families. I will support the affordable care act and fight for fairer immigration policies. I will put the needs of the 45th district first at City Hall. I promise to be a strong advocate for the people not for myself.
